

International History OLYMPIAD 2016

2016 International History Olympiad Medalists and Medals Summary

2016 International History Olympiad Official Medals Rankings for Top Individual Students

Notes: All students who won at least two gold medals, or who finished in the top five for overall medals in their division are shown. Official individual medal rank is computed first by total golds, then total silvers among students with equal numbers of golds, then total bronzes among students with equal numbers of silvers. Team events (Bowl and Hexathlon) are weighted equally here with other medals, since individually, those students still won an actual medal. Overall medals totals, irrespective of type of medal, are also given with the ranks for the top five in each division.
